Introduction

Anyone can learn a language with Michel Thomas!

The amazing teaching method of the world's greatest language teacher, Michel Thomas, is now available to everyone, not just the rich and famous. These all-audio courses, published by Hodder Arnold, provide an accelerated method for language learning that is truly revolutionary. And they promise a remarkable educational experience that will make your learning both exciting and pleasurable.

No books, no pens, no homework, no memorizing – just sit back and let the most sought-after language teacher in the world be your guide. In a matter of hours, you will find yourself speaking and thinking in your new language quite naturally and effortlessly.

What is the Michel Thomas method?

Over a period of twenty-five years, Michel Thomas developed and perfected a unique method of teaching languages*. His approach gives startling results within a remarkably short time, all without the need for books, memorizing, or homework. In essence, Michel Thomas breaks a language down to its component parts and enables learners to reconstruct the language themselves to form their own sentences, to say what they want, when they want. The experience of learning a language becomes so exciting and satisfying that it stimulates self-motivation and builds confidence.

Michel Thomas presents the language within simple, elegant structures that echo the way the language is spoken. He achieves this by guiding you through carefully planned sets of exercises that build up your understanding of the language almost without you realizing it. You are able to absorb the structures effortlessly and apply them naturally right from the start.

What does the Advanced course contain?

In his specially developed course you hear the voice of Michel Thomas as he leads a class of two students, who have completed the Michel Thomas **Foundation** (8-hour) course. Their responses to Michel Thomas are not scripted and they have received no additional instruction or preparation – just the guidance from Michel Thomas that you hear. You participate in this class actively and learn along with the students.

This radically different approach means that you will learn a language in 'real-time' conditions, that is in the same way that the students on the recording learn. There is no need to stop the recording to do homework, additional exercises, or vocabulary memorization. Therefore, unlike other learning methods you may have encountered, you will not be set unrealistic or unachievable goals. The success of the Michel Thomas method is proven by the very results that you hear from the students on the recording and, at the same time, from you as you make your own responses!

HOW IS THE ADVANCED COURSE BEST USED?

- **Relax!** Make yourself comfortable before playing the recording and try to let go of the tensions and anxieties traditionally associated with learning.
- **Do not write or take any notes.** Remove notebooks, pens, dictionaries and anything else associated with learning at school.
- **Do not try to remember.** While participating in the recording and afterwards, it is important that you do not try to memorize specific words or expressions. It is a basic principle of the Michel Thomas method that the responsibility for the student's learning lies with the teacher. With Michel Thomas as your teacher, your learning will be based on understanding, and what you understand you don't forget.
- **Interact fully with the recordings.** Use the pause button and respond out loud (or in a whisper, or in your head, if you are in a public place) before the students' responses. *This is essential.* You do not learn by repetition but by thinking out the answers to each question; it is by your own thought process that you truly learn.
- **Give yourself time to think.** The students on the recordings had all the time they needed to think out their responses. On the recordings their 'thinking time' has been cut in order to make full use of the recording time and to give you all the time you may need (by pushing your pause button). The pause button is the key to *your* learning!
- **Start at the beginning of the course.** Whatever your existing knowledge of the language you are learning, it is important that you follow the way that Michel builds up your knowledge of the language.
- **Do not get annoyed with yourself if you make a mistake.** Mistakes are part of the learning process; as long as you understand why you made the mistake and you have the 'ahaa' reaction – 'yes, of course, I understand now' – you are doing fine. If you made a mistake and you do not understand why, you may have been daydreaming for a few seconds. The course is structured so that you cannot go on unless you fully understand everything, so just go back a little and you will pick up where you left off.
- **Stop the recording whenever it suits you.** You will notice that this course is not divided into lessons*; you will always be able to pick up from where you left off, without the need to review.

*Tracking breaks in the recordings reflect the numbering in the index (pages 9–39). These breaks are added purely to help you locate where you left off, and do not represent any sort of hierarchy in Michel's method.

What level of language will I achieve?

The Advanced course is primarily designed for those who have completed the Michel Thomas Foundation (8-hour) course. It is also appropriate for anyone who has studied a language before, but has forgotten much of it or does not have confidence in speaking.

Michel Thomas teaches the everyday conversational language that will allow you to communicate in a wide variety of situations, empowered by the ability to create your own sentences and use the language naturally. You will absorb the vocabulary and grammatical structures and, in addition, will be introduced to elements of writing and reading.

The Advanced follow-on to the Michel Thomas Foundation (8-hour) course expands on the tenses and structures only touched upon in the earlier course, to give you a comprehensive understanding and mastery of complex and sophisticated language.

How quickly can I learn with the Advanced course?

One of the most remarkable features of the Michel Thomas method is the speed with which results are achieved. A knowledge of the language that will take months of conventional study can be achieved in a matter of hours with the Advanced course. Michel masterfully guides the student through an instructional process at a very rapid rate – yet the process will appear informal, relaxed and unhurried. Michel moves quickly between numerous practice sessions, which all build the learners' confidence in their ability to communicate in complex ways.

Because the Michel Thomas method is based on understanding, not memorization, there is no set limit to the length of time that you should study the course. It offers immersion without strain or stress, and you will find the recordings are not divided into lessons, though the material has been indexed for your convenience (pages 9–39). This means that you can stop and start as you please.

The excitement of learning will motivate you to continue listening and learning for as long a time as is practical for you. This will enable you to make progress faster than you ever imagined possible.

Who is the Advanced course for?

Anyone can learn a language with the Michel Thomas method – and the wide diversity of his students proves this. Not only does Michel instruct the rich and famous, but he has also taught many so-called ‘hopeless cases’. For example, in 1997, Michel taught French to a group of sixteen-year-olds in north London who had been told they could never learn a language, and gave them the ability to use the new language far beyond their expectations – in just a week. Perhaps more important, he gave them the confidence to speak and a belief in, and the experience of, their own ability to learn.

Whatever your motivation for learning a language, the Michel Thomas course quite simply offers the most effective method that is available.

How do I use the Advanced Review course?

The **Review** course has been devised for those who want to review, quickly and easily, the entire teaching contents of the Michel Thomas Advanced course. The Review course can be used in many ways: when you have reached the end of the main course to check or consolidate your learning; as a quick refresher when you return to the main course after a lapse of time; or if you are a newcomer to Michel Thomas looking for an overview of what the main courses contain. Michel will give you a prompt in English, there is a pause which allows time for your response in the foreign language, then Michel gives the correct response. If you struggled to give the right answer, or gave an incorrect answer, when working through the Review course, you can use the index (pages 9–39) to locate precisely where in the main course the specific language point is taught in depth, and can return to the main course to work through the relevant section again.

What can I do next?

The Michel Thomas **Language Builders** take the form of a ‘one-to-one’ lecture with Michel Thomas, building on the words and phrases in his Foundation (8-hour) and Advanced courses. The courses provide confidence in pronunciation, increase your word-power and consolidate your knowledge in just two hours.

The much-anticipated **Vocabulary** courses carry forward the Michel Thomas teaching tradition and faithfully follow his unique approach to foreign language learning. The series editor is Dr Rose Lee Hayden, Michel's most experienced and trusted teacher. The courses remain faithful to the method Michel Thomas uses in his earlier courses, with the all-audio and 'building-block' approach. The presenter builds on Michel's foundations to encourage the student at home to tap into the vast resources of vocabulary common to English and the foreign languages taught here. The student takes part in the audio, following prompts by the presenter, as in Michel Thomas' original Foundation and Advanced courses. The teaching is all in English, with the addition of two native speakers to give models for perfect pronunciation and to increase the opportunity for practice.

See the end of the booklet for details about all these courses.

Try to speak with native speakers whenever possible, as this is invaluable for improving your fluency. Magazines and newspapers (especially those which feature interviews) will give you practice in the most current and idiomatic language. Expose yourself to the language whenever you can – you will have firm foundations on which to build.

So, who was Michel Thomas?

Michel Thomas was head of the Michel Thomas Language Centers and taught languages for over fifty years, primarily in New York, Beverly Hills, and London. He was a graduate of the Department of Philology at the University of Bordeaux, France, and studied psychology at the Sorbonne (Paris) and at the University of Vienna. However, it was his remarkable life experiences that fuelled his passion for teaching languages.

Michel spent most of his childhood in Germany and France. With the rise of Hitler, he began his years of escape and resistance. He spent two brutal years in French concentration and slave labour camps, constantly threatened by deportation to German death camps.

He escaped and fought for the French Resistance, surviving capture and interrogation by Klaus Barbie – the 'Butcher of Lyons' – and torture by the Gestapo.

Michel in the uniform of an officer in the French Resistance

His mastery of languages enabled him to adopt many identities (the last one being 'Michel Thomas'), and, once France was liberated, allowed him to join the US Army as an intelligence officer. His unit went on to liberate Dachau, where he interrogated the camp executioner and interviewed survivors. As well as recording the horrors of the Holocaust, he was driven by a personal mission to discover the fate of his own family (he later discovered that they had all perished in Auschwitz). At the end of the war, he masterminded operations to uncover war criminals and infiltrate

underground Nazi groups, and was renowned for his ability to extract confessions without ever recourse to violence. In 1944 Michel was nominated for the Silver Star medal for his service to the US Army's 45th Infantry Division in France. The award was finally presented to him in May 2004, sixty years later.

Michel's wartime experiences, particularly his torture by the Gestapo when he discovered the ability to block out pain, made him aware of the untapped potential of the human mind. However, it was his deeply held conviction that the biggest weapon in maintaining a free society was education that drove him to devote his life to probing the learning process. Michel moved to Los Angeles in 1947, and he set up a language institute in Beverly Hills. Over a period of twenty-five years, he developed a unique and revolutionary learning system that has made him the world's leading language teacher. Now, for the first time, his method has been made widely available through the publication of these recordings.

For a full account of his fascinating life, read 'The Test of Courage: Michel Thomas' by Christopher Robbins, published by Hodder & Stoughton.

Who has Michel Thomas taught?

People came from all over the world to learn a foreign language with Michel Thomas – because his method works. His students, now numbering in the thousands, have included well-known people from the arts and from the corporate, political and academic worlds. For example, he taught French to filmstar Grace Kelly prior to her marriage to Prince Rainier of Monaco.
